

# DC-3 Dreams Observatory Operating Systems

**ACP Expert makes the most of your imaging time**

## Get the Most From Your Observatory!

ACP Expert™ manages your observatory 24/7, feeding the images it acquires into the cloud. Give it work months in advance. When the weather is good and it's dark, it gets the job done.

Run your observatory from anywhere and see how it's doing

**Special Pricing  
for AAVSO 2022!**

Pricing good through December 15, 2022

Visit the DC-3 Dreams Online Store at <http://store.dc3.com/>. When you check out, enter the coupon code below your credit card or PayPal information, and the discounted price will be calculated.

## Easy – anyone can do it!

- Minimizes your chance of making mistakes
- Automatic planning
- Web / Cloud enabled
- Simple form-based entry
- Mobile devices and tablets (Android & iOS)
- Used throughout AAVSOnet

## Multi-Target:

- Planning is tricky and time-consuming... Scheduler does it for you!
- Tell Scheduler what you want, and under what conditions – **one simple Web form!**
- Your data eventually just “appears”.
- Scheduler acquires your images when the time and conditions are right.
