# OUR ADVENTURES

JULY 16-17, 81  
ALLEN KRUPSKY LONG BEACH CALIF. AGE 17  
LUNAR ECLIPSE ●●● SUN NO CLOUDS ☉  
MOON EARTH

## CAPTAIN'S LOG:

STARDATE - 7.16.81 - 10:41:46

LUNAR ECLIPSE RECORDED ON THIS date AND ON FILM. CONTRIBUTING TO THE AWESOME TERRESTRIAL FEAT WERE REV. ROYER, ALLEN KRUPSKY, MARTIN POISSANT, AND MYSELF MICHAEL GILLING. WE ALSO EXAMINED THE RINGS OF SATURN + JUPITER. UPON FURTHER EXAMINATION OF THE LUNAR ECLIPSE, WE WERE TAKEN BY SURPRISE BY A SATELLITE AMONGST OUR PRESENTS, PASS THROUGH OUR FIELD OF VISION.

CLOSING STARDATE -  
7.16.81 - 11:35.35

Captain  
Michael James Gilling  
Commanding OFFICER  
STARSHIP EARTH

Due to the Baseball Strike I had Nothing better to do to entertain myself so I journeyed up to this desolate mountaintop to sit through another dull lunar eclipse. I, being the typical tourist type, took a multiexposure photograph with f. 45 at  $\frac{1}{4}$  sec. w/ 400 ASA color slide film.

From Long Beach Marty Poissant (out) 16-81

July 17. Steve Padilla, Azusa Ca and Barry McCluskey, WARRNAMBOOL, Vic. AUSTRALIA.

A traveller from Australia who came to the States, went to Ring Nebula, Dumbell Nebula and the Moon as well. I hope to return there someday!

18 AUGUST 1981. WENT BOUSA, A NAIVE YOUNG MAN IN FROM \*PASADENA: CONTEMPLATING THE IMMENSE WONDERMENT AND AWESOME INSPIRING THOUGHT OF LOOKING OUT AND AWAY TOWARD DISTANT WORLDS (OF STARS...) BLEW ME AWAY!!

11/3/81 Off here with men from Fenner Canyon Youth Conservation Camp:

Tom Gordon

Court Franze

Steve Salena T.A.

André Bonapart

April Limeray

Gregor Brodie

Charles Bradley

Stephen C. Viner

12/26/81 J. TODD HANSEN

12-31-81 Mike & Eve Mancano

2-28-82 Patricia Rios from Armenia - Colombia South A.

3-27-82 Mike Kaye - Rimrock Heights

7-5-82 Ahh Yes, what a Spacey Weekend! 

7-6-82 What a Fourth of July!

#9

First, the fourth landing of Shuttle Columbia

I was there at Edwards AFB, It was So Great!

Then, of course, the Star Trek Marathon today from 7 AM - 10 PM.

And third, A total Eclipse of the Lunar Satellite (the Moon)

And Some More Pictures for Dr. George.  Marty Pleasant Yea!

7-6-82 Roger Z. Poissant

July 5-6, 1982

Mike Gilling was present for the third time for this lunar terrestrial feat. I was also present for the very awesome space shuttle landing with Marty Poissant. Both were worth the time I took off of work. I was truly impressed on both occasions and glad I was one of the few who stayed up for the duration.

Michael James Gilling  
July 6, 1982  
06:15.32

14 Aug 82 Walter Clark of Omniscope

10-16-82 Mike Koefke - Rimrock Heights.

6 JUN 83 MICHAEL D. SUGARMAN

August 10, 11, 12, 1983 Marty Poissant

"Someone turned off the hot water!"

The Perseid meteor shower was a dud this year,  
However my omelettes were fantastical!

November<sup>9</sup>, 1983

Roger L Poissant

Marty Poissant

Weather Report: Windy and cold and cloudy

I finally met Mr. Ford. Later today we shall pick-up  
Rev. Evans from Australia. On Friday evening we,  
Fr. Roger, Rev. Evans, and myself shall attend the Orange County  
Astronomy Club with Rev. Evans as a special speaker.  
We also went to LA Astronomy at Griffith

12th Nov. 83.

Bob Evans, Maclean N.S.W. Australia.  
Mr. Supernova! He discovered his 5<sup>th</sup> on Nov. 25<sup>th</sup>!

12<sup>th</sup> Nov. 83 Van & Dan Sabers came to visit  
Cold, wet & windy. Brought up Rev.  
Robert Evans. Tomorrow we will visit  
Mt. Polomar. Marty Poissant forgot to  
say I was going to the Orange Coast  
Astronomers meeting too. Long Beach Ca.

2<sup>nd</sup> 3<sup>rd</sup> Dec. 83 Don Sabers came with Arthur Royer  
to photograph a super nova. Weather stuck  
on the 3<sup>rd</sup> but viewing was very very  
good on the 2<sup>nd</sup> & the 3<sup>rd</sup> was wet  
windy and cold. *Frank R. R.*

↑  
Same Day Marty Poissant  
Expecting heavy clouds, we were shocked to  
find perfect viewing conditions. The clearness was  
perfect. The air was stable so the stars didn't twinkle,  
and the wind blew opposite the dome opening.  
I took a shot of the Perseids w 300m f 8 400ASA, 20 min  
Orion Nebula 300m f 8 400ASA, 30 min + 2 fields.  
We came in Don's 4WD. A little snow here.

December 27-28-29 Marty Poissant w/ Steve Padilla & Fr. Royer, Fr. Frank Rihoda  
Viewing conditions - <sup>High</sup>cloudy + windy on 27<sup>th</sup>  
cleared somewhat by early morning of 29<sup>th</sup>  
missed Evans' Supernova  
Took shots of occultation of moon and Saturn at about 6:40 AM  
Steve videotaped it

- Oct. 25, 1984 Marty Poissant  
Guided one 1/2 hr. observation exposure.  
→ I will never ride my bicycle home via Azusa again.  
I had to rock climb with a cycle on my shoulders and dangerously loose rocks under my cleats, 85 mi, 8 hrs.  
I drove my VW bus up for it's first time w/ Fr. Royer.  
Nice to get away.
- July 11, 1985 Marty Poissant - on my way to Mammoth  
chatted with Steve Padilla and Royer.
- Aug. 27, 1985 Clay Baker; President & Founder of Glendale College Astronomy Club!  
Wow!!! My greatest night ever - I spotted  
Halley's Comet at 4:30 AM - before Steve (Ha Ha!)  
And Orion blew me away! Until next time...  
soon. Wow!!!  
→ That's HALLEY'S COMET!!!
- 9-15-85 Clay Baker  
Saw Halley's again; also Biocabini-Zimmer (however that's spelled!) Took some pictures, too! Didn't get any homework done though. Excellent seeing!!
- 10-19-85 Girl Scout Troop 133 - Rowland Hgts.  
Marilyn Caudron - Leader thanks!  
Celine Seagle, Christina Grandas,  
Angie Murillo, Brigitte Bilodeau & the  
groats, Kate Klop, Claudette Dupont, Nicole Seagle,  
Jenny Meredith,  
Jackie Bilodeau  
Kathleen Bilodeau
- 11-9-85 Lewis M "The Cyclops" Cook  
I think most of my charts blew away. I've never seen stars like that. How do you make them so fuzzy? I'll bet you do it with mirrors! A really magnificent installation. I'm sure the seeing will be better my next trip but nevertheless I did get fainter stars than before.
- In addition to the regularly fuzzy stars Halley was really cute!

July 2, 86 Sister Kathleen Dorman - Chandler, Ariz  
 9:35 This has been great. This spot is not only beautiful but very restful and relaxing. I was very surprised. I thought it was much smaller! I had a great time. I really enjoyed watching Fr. Roger set the telescope up for pictures.

Oct. 12, 1986 GARY RAY - Houston, TX  
 Transparency was good. Up here w/Steve.  
 Very impressive instrument!!  
 Good night of viewing; some astro.  
 It would have been better had the Astros won - at least the Angels won, though.  
 Good Luck, Angels (but not too much). (C)  
 Robert Ray - I was here 7/16/83. Back with my brother. Beautiful weather. Lots of stars last night.

1987

July 22  
11:35 PM

Clint, Janet and Mike Mattei, Bahadır Erimli (Istanbul, Turkey) and Bill Goff observed the outburst of the recurrent nova U Sco at about 13.9 - 14.1 (on the way down) and enjoyed Saturn, the good seeing and the wonderful telescope!

July 13/14  
9:30 - 11:00  
PM PDST

David H Levy - this is a fabulous observatory.  
John W. Culisè, III - Finally after all the years.

(w/ Ford)  
Peter & El  
(Peter Collins)

Partial moon patrol, observing of variables + m-57 and central star  
Toast to J. Paltier, C. Anderson, C. Hurless & C. Ford - very fine!

All 3 obs'ns saw central X in Ring Nebula! -  
and w/ gibbous moon rising.

1988

JAN 24

GRAEME MAC DONALD - STONEY AUSTRALIA.  
SKIED IN 6:00 PM 23 WITH JACK & MARLEN CHILD  
LOOKED AT MOON  TOOK PHOTOS

LOOKED AT JUPITER  AND FOUR  
MOONS TOOK PHOTOS

LOOKED AT WEBBULA IN ORION

LOOKED AT TWIN STARS

LOOKED AT GALAXY M51 

LOOKED AT GLOBULAR CLUSTER M3

SUNDAY MORNING WENT SKIING, CAME BACK  
AT 1:00 PM LOOKED AT THE SUN AND  
SAW SPOTS 

HAD A GOOD TIME LEFT 2:00 PM

July 6, 1988

Jim Kulesya its good for exploring and its a nice place to look at the beautiful galaxy. Kevin talks Its great!

Loren Grover - great scenery, wonderful place, a lot more stars than at home.

July 6, 1988

April Patterson and Brian Sewell - we went for a drive and here we are. We are planning to look through the telescope at Saturn.

This is Brian Right now I'm wondering what it would be like to kiss April standing in the Milkyway.

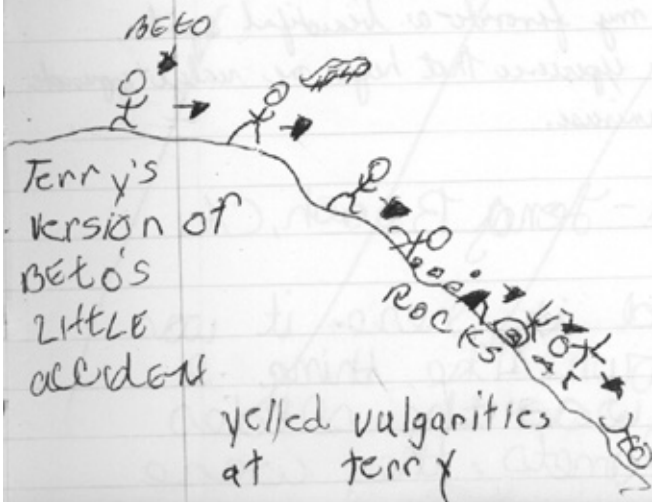

July 13, 1988

Bryan Seity: saw many planets, novae, and sun spots through the telescope. I had a great time and hope to come back Ron Blandford - we saw many planets, stars and even sunspots. We walked (Bryan & I) down a trail looking for a girls camp; didn't find any. We also heard coyotes and couldn't find any snakes. Had a great time!

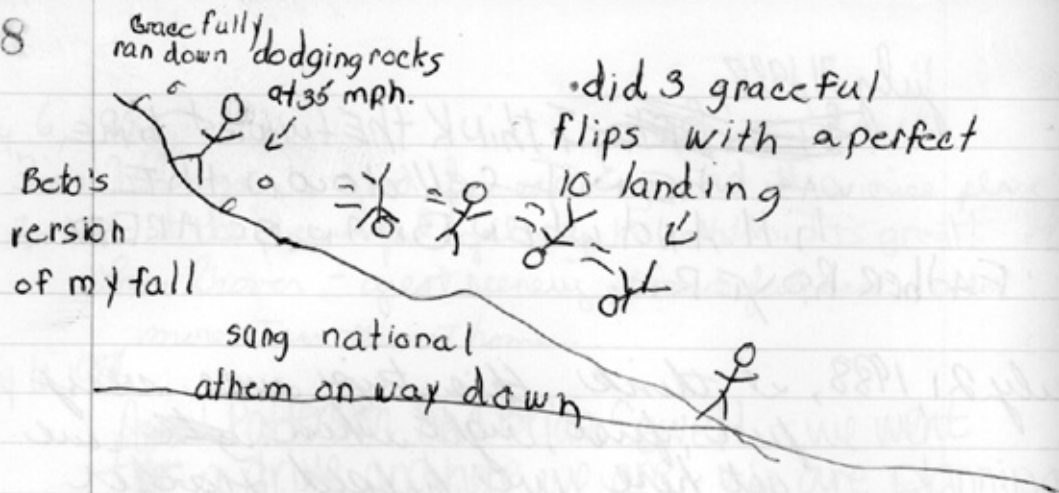

July at Terry - its 4:37 am and I can't go to sleep. Terry can't believe his up. Yesterday we walked through a trail and got scared of a snake snake that Terry thought he saw. I seen the planet ~~later~~ <sup>later night</sup> and at dawn we are supposed to see the solar system. Terry's place hope to come back. The truly funniest part of this trip was to see Terry go 30 mph down the hill also. To here father snore. Terry also laughed.  
Base.

July 21, 1988,  
~~Stan Beto~~ - I think the funniest time  
 was when I fell down the  
 Hill. AND when Brian SCARED  
 FATHER ROYER.

July 21, 1988, I think this trip was very  
 fun, first, right when ~~we~~ we  
 got here we helped Father  
 Royer fix the telescope, we  
 couldn't see very much because  
 it was too cloudy. ~~The~~ next,  
~~we~~ we took a trail in the  
 forest to look for horses,  
 but we didn't find any,  
 on the way there Beto  
 fell into a little accident  
 which he was running  
 very fast and tipped  
 and did about 3 tumble  
 rolls on the rocks.  
 The next day we woke up  
 at 3:30 and saw all the  
 plants except for mercury  
 uranium, and Pluto. After  
 that we took another trail  
 in which we saw a coyote.

28

7/28/88 Joanne Bond - Lakewood, CA.

I finally got a chance to see this beautiful hideaway Fr Royer tells me so much about. It's easy to see why he enjoys it so much! Had a terrific time!

7/28/88 Sr. Kathleen Norman SC - Lakewood, Ca.

*The story means more a great note*  
I finally got a second trip to this great hideaway. Enjoyed even more this time. I had the best breakfast any restaurant could offer. I had a fantastic time.

7/28/88 Tony Strasburger - Long Beach, Ca.

I had lots of fun even though I was the only altar boy here. The food was good and I had a great time.

8/3,4/88 Gaultie Smith - Long Beach, Ca.

Profound!! M-B my favorite a beautiful spot with such quiet. An experience that helps one realize + appreciate the vastness of the universe.

8/3,4/88 Christie Smith - Long Beach, CA.

I loved it here it was so much fun. The thing I liked best was the slides and the planets they were

meat. I also liked the moon it was neat it had a lot of craters. I had a lot of fun.

8/13-4/88 Marcus O'Neil Lakewood C.A.

We came up the 3rd and had dinner, it was great. Later that night we saw all the planets and they were wonderful. I had a lot of fun.

8-14-88

Nicole Smith

~~It was very fun~~ Dear Booky

I like it very fun much up here.

8/4/88

Damen Smith

L.B.

We saw all of the planets except for Pluto and Mercury. Dinner was great! We got to see a star cluster and a nebula. Had a lot of fun!

8/20/88 Off here with members of  
the Riverbank Astronomical Society

Barbara & Rick Bean

Tim Rulesya

8-30-31 1988

Adam Sharp

It was neat seeing the sun  
set and how dark it

was then seeing the sun

rise it was the best

ERIC SHARP

SEE WAS GREAT. SAW VARIABLE STARS  
AND I DID SOME MAGNITUDE CHECKS.

SATURN WAS GREAT & SAW THE SPACE  
BETWEEN THE OUTER & MIDDLE RING.

MARS WAS THE BEST SIGHT WITH THE 920  
FILTER AND SAW THE POLAR CAP.

JUPITER WAS ALSO GREAT AND SAW THE TWO  
LARGEST BANDS. AND SAW VENUS HALF FACED.

THE BEST SIGHT THAT NIGHT OF EVER!

9/28/88 WE HAD A GREAT TIME, SAW A LOT OF INTERESTING  
STUFF - MARS WAS BRILLIANT SATURN WAS TOPS  
BUT... WHERE WAS RICK?

Steph P. Veen

9/28/88 Oh! Hi! Rick sorry we missed you. you should  
HAVE BEEN HERE the SATURN Rings were amazing  
MARS Polar cap was white. (9)

Don R. McCoy

10/29/88 RICK WHO?

J. Gilha

1/14/89 Maren Child

skied in, took  $1\frac{1}{4}$  hours and I only  
fell over 5 times. Very impressed  
with the toilet, will write and tell  
my mother in Australia about it. I  
really appreciate being able to ski to  
such a cosy place and see amazing  
things through the telescope. The first  
time I came here (Jan '85) was the first  
time I'd been skiing and was a rude  
shock!

4/6/89

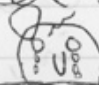

Hot and clear, saw 24 hr old moon. Hiked  
down to Wrightwood and back (4 1/2 hrs). Super 8 film  
of sunset and stars; exposure every 2 minutes from 7:15 p to  
11:15 p. Experienced electric chair.

Marty Porvart

4/16/89

Got to see Jupiter, the moon and Sun spots on the ~~the~~ sun. But best of all, we got to see blue sky and smell fresh air. California does have some redeeming qualities. Thank you for this experience.

Neal, Kelly, Joshua & Devin

16-4-89 Came with Jack & Maren Child. Saw the fantastic sights of Jupiter and its moons - the Moon - the Sun. Slept through seeing Saturn and a possible Mars ~~with~~  Enjoyed the mountain peaks with the last snow on them and the smell of pine trees.

A lovely place!!

Barbara Bernare AUSTRALIA.

6-10-89 Brigitte Bilodeau ♥ I had the most triumphant time here!! I'll remember this most EXCELLANT ~~the~~ ADVENTURE through my life. And remember... Party On, DUDE!! Jackie Bilodeau, This has been the most coolest day and I hope when you come you'll have as good a time like I have. See you next time!!

15 years old  
12 years old

6/29/89 Lizards by day, planets by night

What a place! Steve Badolphi

6/29/89 Now I see

Wally, than? Kyhe

6/29/89 Really. The planets and lizards aren't so different... only the most decadent people study them!

Vandana Sharma

6/29/89 I came all the way from Wisconsin to look down at lizards and wound up looking up at stars. I came here to see Saturn

Rosey Temkin

7/8/89 This is just such a trippy place, but the toilets should be changed. This was a real fun experience?

12 years old

Jepu Alano

15 years old

I came, I saw, I kicked San's —. Anyways, this is a really great place, I had a raddical time. Later.

gregoric Jan

15 years old

Wow, What a tripendicular experience x Stay stoked x

Alano

7/8/89

cont.

I can truly say I ♥ it here. The stars look totally trippy & saturn looked so fake. It was pretty neat-to-keen. This place has definatly made my ~~me~~ boat float. Hope to come again soon &

15  
years  
old

Bye 4 now,

Kim Luck

P.S. God Rules &amp;&amp;

Well, can I say that it was fun? Yes I can! I could stay up here forever. But now I must go. Bye for now, I've gotta bail.

17  
years  
old

Sam Vuong

This place is a real trip! I love the view. I can not believe a place this cool is in the middle of nowhere! I will always remember tonight.

Love in Christ,

Wendy

I learned alot tonight that I know I'll never forget. It was real fun and I'd like to come back soon.

16  
years  
old

Latisha Day ☺

Labor day September 4, 1989-

We saw some planets  
we saw Venus and Saturn.  
We also saw the moon  
and some star clusters, but  
the best part was the  
comet it was bluish green  
and white it was neat.  
We went to or on a  
hike it was three miles  
I was tired when we  
got back. I had a great  
time.

Christie Smith ♡

Labor day September 4, 1989

I had a great time.

Nicole Smith

I was here 9-4-89! Jim Smith  
Great Time!

9/4/89

I performed my yearly obligation - I observed!!  
We also observed comet M17 Saturn - nebulas beautiful

Paulette Smith

What a view!

Damien Smith

+ 6/17/90 SHAWN GILL, Few clouds.  
And first look into an eighteen  
Inch telescope. Got very good views  
of some globular clusters and some  
nebulas.

+ 7/20-21/90 Greg Lyzenga Altadena, CA  
As guest of Jack Child I had a great  
introduction to the observatory on a fine  
(but breezy) night. I hope to be back!

8/22-23/90 Marty Poissant  
We had perfect viewing with no wind or clouds. Smoke from  
the Yosemite and other forest fires blocked out much of  
the desert lights. Comet Levy was naked eye and  
an excellent sight through the 18" and Fr. Koyus mega-  
binoculars. We also saw Saturn and three variable  
stars which we calculated their current magnitudes.  
I feel fortunate to be in this beautiful place  
while I watch U.S. military men waiting for word in  
the Saudi desert.

Would you believe the Dodgers lost after leading  
11-1 in the 6<sup>th</sup>? The Phillies scored 9 runs in the 9<sup>th</sup>  
to win 12-11! Mike V. and I left Chavez Ravine in the 6<sup>th</sup>.

8/22-23/90 Mike Vanderwell.  
Marty Poissant's Canadian cousin (Aman!)

9/1/90 Emie Williams SIERRA MADRE, CA.

Enjoy the views and enjoyed  
using the instrument using video  
equipment. The moon was spectacular!  
Comet Levy also was great. Got a little  
windy. Too bad we didn't see the occultation.  
Saturn was great with the video.

20-2-91 Andrea Boattini, Firenze, ITALY  
 The sky seems to be very good and I hope  
 to enjoy myself a lot here with such good  
 telescope in a very dark observing site!

Darryle Cooley 2/20/91  
 Anthony Finney 2/20/91 Wrightwood Cal

Mike Mullen  
 Thank you very much,  
 I love to hear you, your friend  
 Mike Mullen

7-13-91 I had a lot of fun up here and I  
 thought that it was really nice. I hope  
 to come up here again.  
 Tracey Jenkins

7-13-91 Well this WAS A great day to  
 go up but I should have slept  
 a little more, but had a ~~great~~  
 great ~~time~~ time!  
 Rick Bodeau

7-13-91 This was a wonderful opportunity  
 that we normally wouldn't have. We  
 really enjoyed the evening  
 Bill & Marilyn Jenkins

7-14-91 I think that this is an  
experience which I will never forget  
Ryan Yulett

8-31-91 This is a wonderful place.  
This was my first ~~experience~~  
time looking through a telescope  
& it's an interesting experience. I  
hope to return someday.  
Kendra Turk

thurs  
9-5-91

When Tom Cave called me on Tues 9/3 to ask  
if I'd like to travel with Father Ronald Royer to  
the Ford observatory on Wed 9/4 - I said YES almost  
before he finished the sentence. Meeting at St. Pancratius  
church in Lakewood Dr Royer, Tom Cave, "Connie Chrones  
& I" arranged ourselves in the Dodge Caravan &  
enjoyed the relaxing ride to Table Mountain. Traveling  
through a rainstorm at Wrightwood - we stopped at  
the Ford Cabin - then dinner at the Wrightwood Country Club.

With the heavy flash shower ended we  
headed for table mountain and my first visit to  
the Ford observatory. It was an experience to  
watch the good father open the dome & carefully  
(almost lovingly) prepare the precision 18"  
telescope for its probing (alienless sp) into  
the heavens. In spite of some clouds we  
had spectacular views of ~~Jupiter~~ SATURN with  
Tom "planet authority" Cave giving running  
commentary - My eyes were opened by  
viewing the "planetary nebula in the constellation  
Lyra - Next we viewed the double double star  
in Lyra.

A special attraction was our outside  
viewing of spectacular lightning

bolts appearing on the eastern horizon over the desert. The show repeated itself for approx 2 hrs.

After a wonderful nights rest we arose to a wonderful pancake breakfast prepared by culinary artist Dr. Ron Royer -

Two other members of the crew are washing dishes and I've continued to write until the kitchen clean-up is completed -

Our crew was a very compatible foursome!

Thank you Dr Royer for this great heavenly experience

Harold J. Judson

<sup>Sat</sup>  
9/28/91 Charlie + Anne + Charles David (17 months) Oostdyk  
Here with Jack Child to try asteroid photography with 8" Schmidt Camera. Enjoyed pleasant evening in observatory waiting for clouds to clear. Cleared up about 1am. Took photos until 02:30.

<sup>SAT</sup>  
10/5/91 Tex & Pearl Ritter came up from Long Beach to spend the evening with Rick & John. Do some sky looking. Weather perfect. IS some place to visit and see in person out of this world.

Tex Ritter & Pearl Ritter

Saturday, ~~Oct 5~~ Oct 5, 1991 7:40pm - This is a great place to forget about the hustle & bustle of daily life in L.A. - looking up at the stars really makes one feel insignificant compared to the universe. Dayn Rick's ham radio friend - Scott Schary

- 11/2/91 Bob Oliver (PVAA) for a visit
- 11/2/91 Richard Oliver
- 11-2-91 Fred Kuntz, PVAA THANKS FOR THE PECK!
- 11-2-91 MICHAEL B. MCFADDEN PVAA appreciate the time!
- 11-2-91 Marilyn Oliver (PVAA)
- 11-2-91 Robert Ding PVAA. THANKS,
- NOV 9/91 Julie Harrah PAR Much thanks!
- 11-2-91 JACK GARDNER PVAA "GREAT"
- 11-13-91 Marty Pissant - L.B. KWHY-TVZZ Pray for SNOW! 
- 11-13-91 Curtis Christensen - Long Beach, Ca  
Saturday Fuzzy in the Video Monitor - too low to Horizon, Scanned Mon-N-Good
- 12-4,5-91 Marty Pissant - stopover enroute to Mammoth Mtn.  
to work the lifts. Slept well because of those clouds. Hope to  
get back to L.A. for Annular Eclipse Jan. 4, 92. (NOT!)
- 12-4,5-91 Jim Whelan moved mount for refractor off  
rotating table
- Wed  
Thu. 4-22-23-92 Marty Pissant - Too cold in Mammoth. Better  
Earthquakes here. Had a 6.1 last night 9:52 PM Sun  
Desert Hot Springs. Best Quote from TV News - "You really  
wanna know where I was? (During Quake) I was in  
the damn bathroom, I kicked in my spurs and  
rode her out!" Kcal interview of <sup>Dr.</sup>Man at Ferris Denny's.  
Also should note mysterious laser beam emitted  
from neighboring Smithsonian Obs. Extended to deep space.  
Hiked in - a few snow drifts blocking road.
- MAY  
Wed. 5-6-92 Marty Pissant - No observations, cloudy and rainy.  
Road is now clear thanks to Royer Road clearing service.  
Got paged on my pager, drove to cabin to phone. Received  
assignment to videotape Pres. Bush's visit to tour L.A.'s  
newest tourist attraction repulsion - the RIOT ZONE.
- 22-MAY-92 Tour given to IAPPP group by Father Royer.

worked with Jack Child to help find his new Asteroid using an SBIG ST6 CCD camera and a beta version of the Epoch 2000 software

Sept. 23-24-92 Marty Poirant - Helped install new guide scope. Had a little thunder and rain from tropical storm. Cleared quickly though. Weather very nice, warm, clear. Nice 2B Here! Back to the coast for surfing hurricane waves. Rich S., Steve P. here too.

Oct. 28-29-92 Marty Poirant - In the <sup>low</sup> clouds all night, able to take 2 shots of Comet Swift-Tuttle between clouds. Nikon w/ Guide refractor 12 mins. Good looking comet.

10-31-92 Perfect spot for Amateur Repeater -

Happy Halloween -

Andrew Howard, Altadena, CA.  
Thank "Q".

Oct. 31, 1992 Great place to spend Halloween - we saw the crab Nebula, Andromeda, and Mars. Mars was 'hailing' but it was still very cold up here. Always real interesting.

Scott Selig Tunjuzon, CA.

NOV. 18, '92 Marty Poissant L.B.

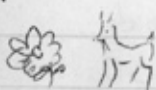

Took portrait of myself w/ Dene, saw Swift-Tuttle Comet Look out! Its headed our way!

NOV 18, 92 Bill Brummond killer comet and SATURN with RINGS and a 5 speed transmission w/ AC

Dec 16-17 '92 Marty Poissant

another good shot of Swift-Tuttle. All the trouble of getting here on those damn X-country skis pays off a foot to two of snow remains from a storm a week and a half ago. New Snow storm due later today. Let's get it!

Apr 29<sup>th</sup> '93 Marty Poissant

It is so obvious that its Springtime's so many birds can be heard, went for a walk and saw a mule deer - He or she asked me, "What are you doing here?"

Nice and warm, no snow except at snow gulch where Roger and I left his van.

Lots of snow at upper elevations.

Today is Riot Anniversary #1 day - NO Riots - Good!

Flowers all over Lone Pine Canyon.

21-22 May 93 John E. Rogers, guest of Jack Child

to perform followup observations of several asteroids using an SB16 STL imaging camera. Observed two along with one shot of M51. Enjoyed my visits.

12-13 June 93 John E. Rogers  
 William Rogers  
 John Rogers

Observing with Jack Childs, with ST-6 camera. Got two asteroids, one constant and a nice shot of MS1!

7/18/93 Mr. & Mrs. M. Mallon and Anadhana Khalsa  
 Thank you very much for the opportunity to view and learn with you

7-21/22-93

→ Marty Poissant

this has been the warmest stay I've ever had here +50° at 4 AM. The mts are so lush/green, flowers, bees, hummingbirds and woodpeckers - a nice place to be - Foed Observatory. Looking forward to the Versid Meteor shower (storm possible) next month while up at Bristlecone Pines.

11/17-18/93

Marty Poissant

my mini-vacation from work, just what I needed. In-the-news: NAFTA PASSED, Michael Jackson missing - hiding from LAPD. Nice weather here, clear/cold. Planning for Lunar Eclipse Nov. 28<sup>th</sup>. Some snow on the ground from last week. Saw four deer near here now bear.

12/1-2/93

Marty Poissant

Lunar Eclipse sequence with 12.5" Sun telescope turned out excellent; up here for vacation.

7/9-10/94

Marty Poissant

Video'd Roger's talk at Table Mt. Campground. Steve P. Dave Phelps also were there. Ol's survived the forest fire.

Got a new job yesterday (Fri. 8<sup>th</sup>) at "E" cable Net. Visiting bro. Roger Poissant in Seattle, China for work. Brazil still in the World Cup. ↑ cancelled

12/14-15/94 Marty Poissant  
 Took pictures of clouds rolling over mt. High  
 ski area at sunset - Nice. It's cold 20° F.  
 Walked in - now we have to walk out in  
 the dark cold dawn. Watercolored four  
 Christmas Cards. Saw train wreck  
 down in Cajon Pass.

9/20-21/95 Marty Poissant  
 Observed two comets - Hale-Boopp and a  
 no-name. I am impressed with the  
 CCD/computer set-up. Ford Obs is  
 really modern now. I have to run  
 back to L.A. to work on the O.J. trial.  
 It should wrap-up this week.  
 Good to see Steve Padilla and Mounier.

10/4-5/95 Marty Poissant  
 Observed comet Devico nice long tail.  
 O.J. Not Guilty?

10-21-95 Jeff R. Schuch & John Stephenson  
 WINDY NIGHT. PHOTOGRAPH M-33 & M-31 IN HYPERED  
 FILM.

11-16-95 Marty Poissant  
 I did not look through scope at all. Hiked  
 with Steve P. in burnt area. Dead Coyote.  
 Nice and warm. Talked to Arnold Palmer  
 yesterday. Start at GTE Mainstreet tomorrow.  
 Vacuum Ford Obs floor. Looking forward to  
 an excellent slide/sound presentation by Roger  
 on his India Eclipse Expedition.

11/29-30/95 Marty Poissant helped work on Drive

6/18-19/96

Marty Perissant I'm riding my bicycle home again - <sup>with 6/14/96</sup> Angeles Crest - Pasadena - Lakewood.

I took a lesson in computer astronomy.

6/26/96

Marty Perissant cleaned downstairs and stairs, wasted time playing a computer game.

↑ Bike Ride Results. Departure 6:20 AM 6/19. Arrived Lakewood 4 PM. One Flat tire Very good ride weather was perfect. about 100 miles - 60 to LA Canada.

7/9-10/96

Marty Perissant  
more computer lessons. This time I am walking down Line Five Cyn. Road. to the tracks where Munsiguar Royer will pick me up. ? I am leaving now 6:16 AM.

9-7-96

SCHROEDER, STEPHENSON, CURTIS BYROM NICE telescope seeing condition meant fuzze ball observations, no multiple band <sup>observations</sup> of Jupiter, Refractor 64mm like Jeff.

9-14-96

Carlson's Ken Jardine J. SCHROEDER, CURTIS BYROM, J. STEPHENSON, S. ROBINSON.

9-26/27-96

Marty Perissant  
Bad Moon Rising! What a fantastic, beautiful lunar Eclipse. First project for my new Sony TR 3000 Video Camera. No wind, some clouds, not too cold - perfect. A small crowd joined us. → Royer, Padilla, the Gossetts, Dan Lopez and two sons, Ron of Wrightwood and his wife.

Be sure to see "Bad Moon Rising" when it comes out on video. also should add → I operated the Press Camera for the every 10 min. multiple exposure. Good Eclipse!

JEFF SCHROEDER,

DEC 1, 96

*[Signature]*  
 Karen Ida

Sarah Pinkerton - A great experience made possible by John, Geoff & Karen. Thank you very much.

MAR 29-30

1997

Leslie Berlin Fascinating experience  
 Saw Orion nebula & Comet

mar 29-30

Melinda Jarvis - 

Jim Weifu

I loved it. But watch your head.

Mar. 29-30  
 1997

*[Signature]* "The cosmic ballet..... goes on."

-William Shiner

To Marty Poissant : Hello there! You sure love it up here, dont you?! Keep on 'comin, and its longevity will remain secure! They'll tear this place down if people stop coming there, but it seems that you alone will keep this place in tact! Keep it up! I came up with the above group to observe the comet - my first, and last time up here .... but it was fun! Im sure it'll be waiting for you when next you decide to venture back.

- Joe

March 29, 1997. It had been a year in waiting until we finally arrived at the great Ford Observatory in Wrightwood. Trailing a Volvo wagon with DARWIN trapped inside the fish symbol, we came to explore, photograph and meet interesting folk. It was a time when Halle-Bopp was bright and wanting, flashing through the night at 60,000 miles per second. It was watching us ~~and~~ with its magnificent brilliance and unbridled passion. Ah! we were fooled. However, it disappeared and then Orion greeted us with sharpness. The people here were filled with stories and grace. Yes, it was a fabulous evening. Father Roger gave John the keys to this place in ten years and then to Jeff within a year. Has he been softened or is he spreading this great treasure in this amazing field? Give me the keys!

Steve Berlin

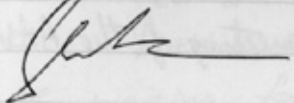

APR 6-7-97 VISITORS:

Phil Barnes-Roberts  
 Donna Barnes-Roberts  
 Renee Barnes - Roberts ☺  
 Bryce Donahue  
 Rande Ingram  
 Kevin Ingram  
 Lynn Donahue  
 Harold Totten  
 Ishi Kiri  
 Karen S. La

4/9-10/97 Marty Passant (again)

Just wrapping up our HALLE-BOPP Comet adventure. 2 nights at Death Valley Jet, one night here. The Comet was indescribable - you'll have to look at the pictures.

in May Padilla, Roger and I meet in Sion, Switzerland for the 2<sup>nd</sup> international meeting of the AAVSO.

- 4-13-97 Julie Jensen  
Beautiful view of the Maroon!  
It's nice to know there's places  
like this to visit. Thanks Jeff!  
Comet Hale-Bopp - Great show.
- 8/26-27/97 Marty Pissant  
Another forest fire towards Baden-Powell.
- 11/4-5/97 Marty Pissant  
We had our first clam dinner w/ eggplant  
and linguini and stuffed zucchini *mmm m*  
mina! On our way to Albuquerque, N.M.
- 11/4-5/97 Mina Villalvazo  
First time up here and loved it! Hope I can  
come back soon.
- 11/8/97 Diana Howell & motley crew -  
11/8/97 ~~Janie~~ (part of above motley crew!)  
Don, ~~...~~
- 11/16-17/97 Marty Pissant  
Instant oatmeal, Instant coffee, Instant meteor  
shower! Fast, short and bright! very nice.  
↑  
Mina Villalvazo  
I'm back! came up to see the meteor shower,  
haven't seen many of them but still enjoyed it  
very much.
- 1/20-21/98 Marty Pissant and Mina Villalvazo  
First in in '98 walked in/walked out.  
First snow fall for me!
- 7/18-19/98 I'll Be back!!  

8-11-98

Emiko Ilsa

This is a beautiful spot with an exquisite view. The weather and the conditions worked out great tonight, we saw a lot through the telescope when we weren't looking at the Perseids.

8-11-98

Jose Luis Perez

Whoever is the great architect of the universe he certainly did a great job. Thank you Jeff for letting me have the chance of seeing his wonderful work of Art.

8-11-98

CHAN, KWOK KEUNG

This is a pretty view to observe different planets. I really like and enjoy it. 這是我第一次探訪, 我永不會忘記。

Note Date

6/12/99

Dan + Ann Emmons - Fantastic to see m-57 m-13 wow what a trip to see such amazing star clusters very appreciative of all the shared knowledge - Thanks for the experience! :)
